

Renewable Energy Program Enrollment Form

Yes! I want renewable energy!

Renewable energy service is available for purchase for Delano Municipal Utilities customers. This is a voluntary program to allow customers to purchase all or part of their energy from a renewable resource.

Blocks of 100 kWh may be purchased for a

minimum period of 12 months with an automatic renewal at the end of the 12 months unless the customer requests in writing that the service be discontinued. Current rates are 2.5 cents per kWh above (in addition to) the existing energy charge. This program is offered to meet state-mandated requirements per Minnesota Statutes 2002, section 216B.169.
